Sample or Census: Census

Number in Population: 39

Percentages are weighted to represent the Agency's population.

Preliminary analysis of the 2010 Federal Employee Viewpoint Survey indicates some very encouraging trends in USTDA employees' perceptions of their work and the agency.

USTDA's response rate of 89.7% on the 2010 Survey was excellent, far exceeding the Government-wide response rate of 52%. Data from the survey demonstrate an overall outstanding positive response to the survey, including impressive increases in the number of positive responses by agency employees. OPM interpretive guidelines for the survey deem positive responses of 65% or above on a survey item to be favorable and positive responses of 35% or below to be unfavorable. Applying those criteria to USTDA's 2010 survey data, 83% of agency responses were favorable and only 5% were unfavorable. Also, comparison of agency positive response rates with government-wide positive response rates shows that 91% of USTDA positive responses exceeded government-wide rates. Fifty-five percent of the USTDA positive responses that exceeded the government-wide rate did so by significant margins of 15 to 45 percentage points.

Trend data comparing USTDA 2008 with 2010 survey results were also very positive. On the 58 questions for which data were available to compare 2010 agency responses with 2008 agency responses, 36(63%) had statistically significant increases of 5% or more in the number of positive responses. Only 7 of the 58(12%) had decreases of 5% or more in the number of positive responses.

As has been done in the past, survey results will be addressed in all-employee staff meetings and further analysis will be conducted to determine areas which will be targeted for improvement.
